Remarks of the Chief Electoral Officer

The conduct of the Senate Nominee Election in conjunction with the Provincial General Election was a welcome challenge.

Conducting two parallel elections on one day is a complex undertaking. Appropriate resources, forms and training packages had to be created and distributed across the province. Election administrators had to be prepared to answer questions related to both events in a clear, concise manner. Election administrators also had the daunting task of counting ballots and reporting results for the two events. The accurate, timely count of two sets of ballots was identified by election officers as the biggest challenge related to the 2012 elections.

The successful administration of the event is a tribute to the many individuals involved as returning officers, election officers, candidates, campaign workers and volunteers.

O. Brian Fjeldheim Chief Electoral Officer

1

Overview

The April 23, 2012 Senate Nominee Election was conducted under the authority of the Senatorial Selection Act (the Act), as amended in April 2010. Section 3 of the Act directs that:

The Government of Alberta shall submit the names of the Senate nominees to the Queen's Privy Council for Canada as persons who may be summoned to the Senate of Canada for the purpose of filling vacancies relating to Alberta.

The Act directs that an election may be held:

- in conjunction with a provincial general election under the Election Act,
- separately on a date provided for in the order, or
- in conjunction with the municipal general election under the Local Authorities Election Act.

The election was held in conjunction with a provincial general election for the second time. Order in Council 151/2012 dated March 26, 2012 directed that an election of three persons under the *Senatorial Selection Act* was to be conducted. The Order in Council directed that the timeline would follow the key dates established for the Provincial General Election.

Eligibility of Candidates

Candidates had to meet the following qualifications in accordance with the *Constitution Act*, 1867. Each had to be:

- at least 30 years of age,
- a Canadian citizen,
- owner of \$4,000 in real property in Alberta, and
- resident in Alberta.

Candidates also had to meet the following qualifications in accordance with the Senatorial Selection Act:

- ordinarily resident in Alberta for at least six months immediately preceding polling day,
- could not be sitting members of the House of Commons, Senate of Canada or Alberta Legislative Assembly,
- could not be candidates in the April 23, 2012 Provincial General Election, and
- could not be prohibited from participation by sections 56(c.2), 57, 58, 178 or 181 of the *Election Act.*

Registration of Candidates

Thirteen prospective candidates filed registration papers under the *Election Finances and Contributions Disclosure Act*. Upon registration, candidates were eligible to accept contributions and use funds for the purpose of campaigning.

Thirteen candidates filed nomination papers with the Chief Electoral Officer by the close of nominations at 2:00 p.m. on April 9, 2012. Each of the candidates collected a minimum of 1,500 electors' signatures supporting their nomination and provided a \$4,000 nomination deposit.

Advertising

The Proclamation was advertised in nine daily newspapers and 103 weekly newspapers throughout the province, following its issuance on March 26, 2012. All advertisements combined information for both the Senate Nominee Election and the Provincial General Election.

In accordance with legislation, maps of each electoral division were advertised on two occasions in newspapers of general circulation during the election period. The first advertisement appeared in the first ten days of the election period. The advertisement included Proclamation information, returning officers' office hours and contact information, qualifications for Special Ballot voters and information regarding the availability of level access in the returning officers' offices and advance polling places.

The second advertisement appeared prior to the conduct of the advance polls, and included information on regular, advance and Special Ballot polls, along with the polling place locations and maps.

Elector Information

Candidates' nominations closed at 2:00 p.m. on Monday, April 9, 2012, in accordance with section 9 of the *Senatorial Selection Act*, and a listing of candidates was available on the Elections Alberta website (the website) later that day.

Elections Alberta's website provided answers to commonly asked questions regarding polling place locations, eligibility criteria and availability of voter assistance. Electors were also able to confirm their inclusion on the List of Electors after entering the personal information necessary to confirm their identity and prohibit information gathering by unauthorized sources.

At the close of polls on polling day, electors were able to obtain unofficial results from the website as that information was entered by returning officers. The portion of the website containing poll by poll results, and aggregate results for the province, was visited just under 470,000 times after the polls closed on polling day.

Voting Options

In accordance with section 31 of the *Senatorial Selection Act*, electors had the same range of voting opportunities as for the Provincial General Election. Provincial returning officers (presented on pages 15 and 16), along with the staff hired to manage the Provincial General Election, facilitated the Senate Nominee Election vote. The election process and voting options were the same for both events.

Special Ballot Polls

Eligible electors were able to vote by Special Ballot throughout the election period. This is a favoured option of electors who are physically incapacitated, and for those who travel, work or attend an educational institution outside of their own electoral division for extended periods. Upon the elector's request to the returning officer, electors were provided with a Special Ballot on which they were asked to record the names of up to three candidates of their choice. The Special Ballot packages had to be returned to the appropriate returning officers by the close of polls on polling day in order to be counted.

22,124 valid votes were cast at 87 Special Ballot polls across the province.

Advance Polls

Advance polls were conducted on April 19, 20 and 21 from 9:00 a.m. to 8:00 p.m. Many were held in the offices of the returning officers; up to six advance poll locations were established in electoral divisions covering large geographic areas to ensure elector convenience. Advance polls were available to all electors.

369,663 valid votes were cast at 222 advance polls.

Mobile Polls

Treatment centres and supportive living facilities with ten or more inpatient or resident electors were provided with a mobile poll on polling day, where consultation between returning officers and facility staff deemed the service to be appropriate.

Advance notification was provided to advise eligible electors of the time that the mobile poll was to be held. Mobile polls were conducted in fixed locations, or by going bed-to-bed, or by using both methods, to best meet electors' needs.

30,079 valid votes were cast at 552 mobile poll locations.

Election Training

Returning officers trained approximately 9,500 electors to staff the polls on polling day. Those election officers were provided with standardized training to manage the Senate Nominee Election and the Provincial General Election.

Deputy returning officers trained approximately 6,200 electors to serve as poll clerks, as part of a staff complement of almost 17,000 front-line election officers trained and deployed to serve Albertans across the province.

Election officers were responsible for two sets of ballots. In addition, they advised electors on how to mark the ballot for each election and answered questions that arose.

Ballots

3,220,000 ballots were prepared for distribution to 87 returning officers prior to the conduct of the advance polls. Written instructions on the ballot directed electors to select up to three Senate Nominee Election candidates by marking an "x" next to the candidate(s) of their choice.

These instructions were supplemented by the posters displayed in each polling place, which directed electors on how to vote. Translation sheets provided the same instructions in 14 different languages.

Election Night Results

At the close of polls, election officers conducted the unofficial count of all Senate Nominee Election ballots following the Provincial General Election ballot count. Counting the votes for the Senate Nominee Election was particularly time-consuming, since each valid ballot could contain up to three votes. In a polling subdivision of 450 electors, a deputy returning officer and poll clerk had a huge task, with a potential for counting up to 1,800 votes in total, for the two events.

Unofficial results for both events were communicated to returning officers by telephone and were made available in the returning officers' offices. Staff in returning officers' offices data entered the unofficial results as they arrived and posted that information to the website. Interested parties were able to view poll-by-poll results, as well as results aggregated for the entire province, as they were posted.

Official Results

Returning officers were required to count all ballots cast in the Senate Nominee Election and transmit results to the Chief Electoral Officer within four days of the election. This was an extremely time-consuming process due to the potential for multiple votes on each ballot and the large volume of ballots.

It became apparent that the official count could not be completed by the statutory deadline of Friday, April 27, 2012 in all electoral divisions. The Chief Electoral Officer invoked the emergency powers prescribed by section 4(3) of the *Election Act* to extend the deadline for completion of the official count, where needed. Official results for all 87 electoral divisions were transmitted to the Chief Electoral Officer by Monday, April 30, 2012.

The Chief Electoral Officer prepared a Tabulation of Official Results by consolidating the results received from all returning officers. The Chief Electoral Officer announced the official results on Thursday, May 3, 2012 and declared the three candidates with the most votes elected.

The term of a Senate nominee commences on the day the person is declared elected under the Act and expires on the day the writ is issued under section 5(1)(b) of the Senatorial Selection Act.

^{*}Elected

The Senatorial Selection Act directs that the candidate's nomination deposit is to be returned for each winning candidate and for each candidate who receives half of the total number of votes obtained by the candidate elected with the least number of votes. Nomination deposits of \$4,000 were returned to six of the candidates whose names appeared on the ballot.

Three political parties endorsed the nomination of candidates in this Senate Nominee Election.

Points of Interest

Electors cast 1,287,080 ballots in the election conducted under the *Senatorial Selection Act*, representing a voter turnout of 53.9%. In comparison, the voter turnout for the Provincial General Election was 54.4%. This slight variance occurred because electors did not wish to receive ballots for both elections in all cases. Election officers had been instructed to confirm that the elector wished to decline to cast a ballot in one or both elections, in this situation. Declined ballots were to be marked appropriately, maintained separately from the other ballots and recorded as declined for counting purposes. This did not always occur. Since some electors received only one ballot, the official results indicated that a small percentage of electors participated in only one election when voter turnout was calculated.

The 1,098,021 valid ballots cast contained 2,690,800 valid votes. On average, electors selected two candidates on each valid ballot.

Campaign Period Financial Statements

The filing deadline for Candidates' Campaign Period Financial Statements was Thursday, August 23, 2012; four months after polling day.

All thirteen candidates were required to file Campaign Period Financial Statements, in accordance with section 43(2) of the *Election Finances and Contributions Disclosure Act*.

Political parties were required to file Campaign Period Financial Statements by Tuesday, October 23, 2012; six months after polling day.

Copies of all financial statements received by Elections Alberta are available on the website and in the Public Files maintained at the Office of the Chief Electoral Officer.

Cost efficiencies were achieved by holding the 2012 Senate Nominee Election in conjunction with the 2012 Provincial General Election. The 2004 Senate Nominee Election was held in conjunction with the 2004 Provincial General Election. Both the 1998 and 1989 Senate Nominee Elections were conducted in conjunction with Municipal Elections. Comparable costs for the previous Senate Nominee Elections are stated above.

Statements of Official Results

A CD has been provided with the poll-by-poll results which have been taken directly from the Statements of Official Results completed by returning officers in the 87 electoral divisions across the province.

Poll-by-poll results include the number of valid votes cast for each candidate, along with the number of spoiled, declined and rejected ballots.

- Valid ballots are those that are clearly marked for one, two, or three candidates in accordance with section 111 of the *Election Act*. A valid ballot may contain up to three valid votes.
- Rejected ballots are those not counted because the elector's intent was unclear, or because no candidates or more than three candidates were selected, or because readily identifying marks were added.
- A spoiled ballot is one that was marked incorrectly by an elector, who then obtained a replacement ballot from the deputy returning officer. Spoiled ballots are not placed in the ballot box for counting.
- A declined ballot is one that was returned by an elector, who chose not to vote for any candidate listed on the ballot. Declined ballots are not placed in the ballot box for counting.

Poll-by-poll results display the number of eligible electors, including all electors who were on the January 2012 List of Electors, those who were added during the revision period, and those who were added by completing a Declaration of Elector on polling day. The percentage of voter turnout is calculated based on the total number of eligible electors at the close of polls on polling day.

Maps are available in electronic format at www.elections.ab.ca.
